# STATEMENT BY SULTAN

Declares That Balkan Troubles Are Due to Foreign Intrigue.

SUBJECTS' WELFARE HIS AIM

In Remarkable Speech at Yildiz Palace the Ruler of Turkey Vows His Every Effort Is to Promote Their Prosperity.

Constantinople, Sept. 4.—On the anniversary of his accession the sultan received in audience at the palace the heads of the religious communities, and the ecumenical patriarch made a speech of congratulations. In reply thereto, after thanking the patriarch and the others present for their good wishes, his majesty, contrary to precedent, spoke at some length as follows: "All my desire is for the welfare of the population, without distinction of race or religion. As to the detestable and regrettable deeds to which the patriarch alluded I am convinced that the movement does not proceed spontaneously from the population, but is instigated from abroad. I hope the measures taken will insure tranquility. I call God to witness the sincerity of my declaration and that all my aspirations and work are for the welfare and prosperity of all my subjects."

Turning then to the Bulgarian ex-arch, the sultan bade him communicate his words to his flock.

## Regrets For Greek Population.

Next, addressing the Greek patriarch, the sultan said he regretted that the Greek population had also suffered from the recent troubles and declared he would be pleased to contribute to the subscriptions being raised in the patriarchate in behalf of the sufferers.

His majesty further remarked that he was sorry that some of the soldiers had been guilty of acts contrary to his orders and desires.

The sultan personally assured Mgr. Ormanian, the Armenian patriarch, that his words applied to the Armenians as well as to the people of other nationalities.

The porte's note of warning to the embassies and legations (informing them that, according to police information, the Bulgarian agitators were projecting outrages against the embassies, legations and public buildings in Constantinople, saying the Ottoman government had taken precautions and requesting the heads of the foreign missions to do likewise) was issued in consequence of an anonymous letter threatening outrages at the winter residences of the Russian ambassador and consul general.

## FRANCE UNEASY.

## Foreign Office Regrets Sending Albanian Troops to Macedonia.

Paris, Sept. 4.—The officials of the French foreign office express considerable uneasiness at the action of the Turkish government in sending Albanian troops and militia into the vilayet of Koshovo, Macedonia.

The former are notoriously fanatical, and the latter are certainly irritated at being summoned to service at the harvest season and are likely to prove little better. The fact is that while the powers are insisting that only regular troops be employed in suppressing the insurrection Turkey is making every effort to evade the spirit of the understanding while following it to the letter and is therefore using troops which are in reality little better than Bashibazouks. It is feared that this will result in outrages first against the Bulgarians and subsequently against the Christians.

Generally the foreign office expresses relief at the fact that the anniversary of the sultan's accession to the throne passed off without the trouble at the palace which its advisers had forecasted.

## BULGARIANS ORDERED HOME.

## MYSTERY IN EDSON CASE.

Motive of Double Tragedy Not Revealed, Says Coroner.

New York, Sept. 4.—Coroner Munsie J. Jackson, who alone has had access to the private papers of Henry Townsend Edson, who murdered his wife's friend, Mrs. Fannie Pullen, and then killed himself in the presence of his wife and brother, intimates that all the causes leading up to the double tragedy have not been revealed.

The suicide's brothers declare that worry over financial ruin and the disgrace of having to face a charge of embezzling \$5,000 from the funds of St. Michael's Episcopal church had brought him to such a mental state that they had decided to have him examined by a specialist and that his declaration of love for Mrs. Pullen and the letter which he had addressed to her were the outcome of his mental aberration.

Dr. Jackson is not satisfied that this view entirely covers the causes underlying the tragedy. After examining Mr. Edson's papers and hearing Dr. O'Hanlon's report that the nature of Mrs. Pullen's wounds indicated that Edson intended to kill her and no one else the coroner concluded that the murder and suicide were premeditated.

## Secretary Shaw Denies a Statement.

Chicago, Sept. 4.—The published report that government deposits in national banks are to be materially increased is declared by Secretary of the Treasury Leslie M. Shaw to be unfounded. Secretary Shaw made the following statement: "I notice some newspaper accounts to the effect that I am about to increase deposits of public money to the extent of \$40,000,000. It is true I have \$40,000,000 available for deposits if conditions should hereafter render it expedient to make as large an increase. For the present I am accepting only applications for small amounts that have been on file for several months and am confining these to agricultural districts."

Notice the next 10 healthy men you meet. They take Ayer's Pills.

Young girls at this period of life, or their mothers, are earnestly invited to write Mrs. Pinkham for advice; all such letters are strictly confidential; she has guided in a motherly way hundreds of young women; and her advice is freely and cheerfully given.

School days are danger days for American girls. Often physical collapse follows, and it takes years to recover the lost vitality. Sometimes it is never recovered. Perhaps they are not over-careful about keeping their feet dry; through carelessness in this respect the monthly sickness is usually rendered very severe.

Then begin ailments which should be removed at once, or they will produce constant suffering. Headache, faintness, slight vertigo, pains in the back and loins, irregularity, loss of sleep and appetite, a tendency to avoid the society of others, are symptoms all indicating that woman's arch-enemy is at hand.

Lydia E. Pinkham's Vegetable Compound has helped many a young girl over this critical period. With it they have gone through their trials with courage and safety. With its proper use the young girl is safe from the peculiar dangers of school years and prepared for hearty womanhood.

## A Young Chicago Girl "Studied Too Hard."

"DEAR MRS. PINKHAM:—I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventeen years old I suddenly seemed to lose my usual good health and vitality. Father said I studied too hard, but the doctor thought different and prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more. — LILLIE E. SINCLAIR, 17 E. 23d St., Chicago Ill."

## "Miss Pratt Unable to Attend School."

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. I recommend it to all young women who suffer from female weakness. — MISS ALMA PRATT, Holly, Mich."

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life. \$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. ## NEW ARMY DEPARTMENTS.

Possible Changes Contemplated by the General Staff.

Washington, Sept. 4.—The Post says the general staff of the army is considering the advisability of realigning the departments to conform to changes in the transportation situation.

"It is possible," says the Post, "that one or more departments will be created. The department of the east, for example, may be divided into two, the new one to be designated either as the department of the south or the gulf, Kansas, Oklahoma and Indian Territory may be taken from the department of the Missouri and combined into one department."

"Another proposition even of more interest to the country that is being considered by the general staff is the rehabilitation of numerous forts and posts in various parts of the country, but mainly in the west, which have practically been abandoned for several years. Now that the army consists of nearly 70,000 men it is discovered that the posts which have been kept in repair are not numerous enough to accommodate the troops comfortably."

## Excitement in Cotton Market.

New York, Sept. 4.—Not since the exciting days early in the bull campaign has there been anything to equal the confusion which attended the publication of the government September condition report in the cotton market. The figures 81.2 reflect an improvement in conditions for the month of 2.4 per cent and are 18.1 per cent above those of last year. The statement proved better than generally expected and was followed by a rush of liquidation that carried prices off sharply.
